

CRM Custom Views — specification and requirements (based on Zoho CRM)

App	TAVI CRM — https://crm.taviportal.com (tenant NDC-Staging)
Reference product	Zoho CRM — checked live on 2 Oct 2026 (Leads module, admin account), plus Zoho's help and API docs
Product spec (PRD)	NDC-1868 "[SPEC] Custom Views — Saved, Shareable Record Views for List and Kanban (CRM)"
Gap ticket	NDC-1869 (22 items). The 11 new gaps from the live check are not filed yet
Missing list	<code>docs/custom-views/custom-views-missing-list.md</code> (Part A = NDC-1869, Part B = new)
Test spec	<code>docs/custom-views/spec-crm-custom-views-v3.md</code> — scenario ids in the "Tests" column point there
Test cases	<code>docs/custom-views/Custom Views - Spec v3 Test Cases.xlsx</code> (ids CVS-<scenario id>)
Version	v3 — draft for review, 2 Oct 2026

1 Purpose and scope

This document says what CRM Custom Views must do to match Zoho CRM. It joins three sources into one numbered list: the PRD (NDC-1868), what Zoho CRM really does today, and what the CRM build has today.

In scope: the view picker, standard views, creating and editing custom list views, criteria, columns, sharing, the Manage custom views page, the list view grid, the filter panel, record selection and bulk actions, Kanban views, permissions, and the views API.

Out of scope here (listed in §14): other view types (Chart, Timeline, Grid, Map, Canvas), Sheet and Print views, and rebuilding bulk operations. NDC-1868 names them as non-goals; they stay in the missing list for triage.

2 How to read the requirement tables

- **ID** — `CVR-<area>-<n>` . Stable; use it in tickets and reviews.
- **Zoho** — where the Zoho behaviour comes from: **Live** = seen on screen on 2 Oct 2026; **Docs** = Zoho help or API docs only; **—** = not a Zoho feature (a CRM or PRD requirement).
- **PRD** — the NDC-1868 item, or "not in PRD".
- **CRM today** — **Built**, **Partly** (what is missing is stated), **Missing**, or **Not confirmed** (could not be checked; see §15). CRM status comes from the build's code (bundle `index-DfcbYBNN.js`) and the 1 Oct 2026 screen check recorded in spec v2.
- **Gap** — the item in the missing list: `A<n>` = Part A (NDC-1869 item n), `B<n>` = Part B (new).
- **Tests** — scenario ids in `spec-crm-custom-views-v3.md` .

Roles used: Tenant Owner, CRM Admin, Manager, Supervisor, User (the five TAVI profiles in NDC-1868 §4).

3 View picker and standard views

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-PICK-1	One view picker per module with a search box that filters by view name across all groups.	Live	P0-1	Built	—	B1, B2
CVR-PICK-2	Views are grouped: Pinned views (only while a view is pinned), Created by me, Shared with me, Public views. Empty groups are not shown.	Live (Created By Me, Public Views)	P0-1	Built	—	B1
CVR-PICK-3	Each group can be collapsed and expanded.	Live	not in PRD	Missing — group names are plain labels	A1	Z26
CVR-PICK-4	"Show custom views as tabs / as a dropdown" switch; chosen tabs are kept per user.	Live	not in PRD	Built	—	B3, B6
CVR-PICK-5	Recently closed group (last 10 closed tabs).	—	not in PRD	Built (CRM extra)	—	B5
CVR-PICK-6	The picker footer has New custom view and Manage custom views.	Live	P0-1	Built	—	A1, B16
CVR-PICK-7	The last used view per module is restored after opening a record and going back, and after signing out and in.	Docs (not stated)	P0-1	Built	—	B11–B14
CVR-STD-1	Standard views exist in every module: All, My, Recently Created, Recently Modified, Today's.	Live (plus others, see §14)	P0-1, Q12	Built	—	B7–B9
CVR-STD-2	Standard views cannot be renamed, cloned or deleted and their criteria cannot be changed; their columns can be changed.	Live	P0-1	Built	—	B10, A7, A12, G3, G9
CVR-STD-3	System-defined views are marked with * and a legend.	Live	not in PRD	Built	—	B1, B16

4 Create and edit a custom list view

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-EDIT-1	"New custom view" opens a form with name, criteria, columns and sharing.	Live	P0-2	Built	—	C1
CVR-EDIT-2	Name is required and unique per owner per module. CRM limit 120 characters (Zoho API: 50).	Live / Docs	P0-2	Built	—	C2–C5
CVR-EDIT-3	A view with no criteria is valid and returns every record the user can access.	Live	P0-2	Built	—	C1
CVR-EDIT-4	A criteria row needs field, operator and (where the operator takes one) value; an incomplete row blocks Save.	Live	P0-2	Built	—	C6, C7
CVR-EDIT-5	Up to 25 criteria rows.	Docs	P0-3, Q3	Built	—	C8
CVR-EDIT-6	Edit changes name, criteria, columns and sharing; the result changes at once for everyone the view is shared with.	Live	P0-2	Built	—	C15, E2E-4
CVR-EDIT-7	The whole definition is checked on the server on save (limits, types, unknown fields).	—	P0-2	Built (client limits; server to be proven)	—	C8, C11, C12, C22, D19
CVR-EDIT-8	Two people editing the same view cannot silently overwrite each other.	—	not in PRD	Built (CRM extra)	—	C18
CVR-EDIT-9	Default sort and records per page can be set in the view editor.	— (Zoho sets sort in the toolbar and page size in the grid menu)	not in PRD	Built (CRM extra)	—	C12
CVR-EDIT-10	A view applies to one layout ("Applies to the ... layout").	—	not in PRD	Built (CRM extra)	—	C13
CVR-EDIT-11	Every create, edit, sharing change, clone and delete of a view is in the audit log.	Docs (Zoho does not list it)	NFR	Not confirmed	—	C24

5 Criteria — fields and operators

Zoho's operator lists below were read from the live editor on 2 Oct 2026.

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-CRIT-1	Text fields: is, isn't, contains, doesn't contain, starts with, ends with, is empty, is not empty.	Live	P0-3	Built	—	D1–D3
CVR-CRIT-2	Number, currency, decimal, percent: =, !=, <, <=, >, >=, is empty, is not empty.	Live	P0-3	Built	—	D4–D6
CVR-CRIT-3	Number, currency, decimal, percent: between, not between.	Live	P0-3	Missing	A3	Z5
CVR-CRIT-4	Date and date-time: is, is before, is after, between, not between, Today, Tomorrow, Yesterday, Previous/Current/Next Week, Month and Year, Age in Days, Due in Days, is empty.	Live	P0-3	Built	—	D7–D10
CVR-CRIT-5	Date and date-time: Starting tomorrow, Till Yesterday.	Live	P0-3	Missing	A4	Z6
CVR-CRIT-6	Date and date-time: Current, Previous and Next Fiscal Year and Fiscal Quarter, using the tenant's fiscal-year setting. (Zoho has no plain calendar-quarter operator.)	Live	P1-4	Missing. The tenant fiscal-year setting exists in Company settings	A5	Z7
CVR-CRIT-7	Date and date-time: "Previous" and "Next" with a number and a unit — days, weeks, months or years.	Live	not in PRD	Partly — "last / next N days" and "N hours" only; no weeks, months, years	B5	Z40–Z42
CVR-CRIT-8	Date and date-time: isn't, is not empty.	Live	P0-3	Not confirmed — not in the build's date operator list in spec v2 §2.3	—	D1, D7
CVR-CRIT-9	Checkbox: is (true / false).	Live	P0-3	Built	—	D13
CVR-CRIT-10	Pick list: is, isn't, is empty, is not empty. CRM also has "any of" and "none of".	Live	P0-3	Built	—	D14
CVR-CRIT-11	Pick list: contains, doesn't contain, starts with, ends with.	Live	not in PRD	Missing	B6	Z43, Z44
CVR-CRIT-12	Multi-select: include any, include all, exclude.	Docs	P0-3	Built	—	D15
CVR-CRIT-13	Lookup and owner fields: is, isn't, is empty, is not empty; owner = "me".	Live	P0-3	Built	—	D16, D17
CVR-CRIT-14	Owner fields: belongs to Role, does not belong to Role.	Live	not in PRD	Missing	B4	Z38, Z39
CVR-CRIT-15	Tags: is, isn't, is empty, is not empty.	Live	P0-3	Built	—	D18

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-CRIT-16	Relative date operators use the tenant timezone (Cairo), not UTC.	—	P0-3	Built (to be proven)	—	B9, D8, Z42
CVR-CRIT-17	Last Activity Time can be used as a criteria field.	Live	P1-5	Not confirmed	—	D25
CVR-CRIT-18	"In the last / next N hours", "Before now", "After now" on date-time fields.	—	not in PRD	Built (CRM extra)	—	D11, D12

6 Criteria pattern

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-PAT-1	Rows join with AND by default; the pattern shows as (1 and 2) with an "Edit Pattern" control.	Live	P0-4	Built	—	D20
CVR-PAT-2	The pattern accepts row numbers, and / or, and round brackets.	Docs	P0-4	Built	—	D22, D23
CVR-PAT-3	Without brackets the pattern is read left to right: 1 or 2 and 3 = ((1 or 2) and 3) .	Docs	P0-4, Q1	Built	—	D21
CVR-PAT-4	Invalid patterns block Save: unbalanced brackets, () , (and) , a missing or unknown row number, an unused row.	Docs	P0-4	Built	—	D22
CVR-PAT-5	A saved pattern reopens with the same meaning, fully bracketed.	Docs	P0-4	Built	—	D23
CVR-PAT-6	The pattern reads correctly in Arabic / RTL.	—	NFR	Built (to be proven)	—	D24

7 Related modules, lookups and subforms

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-REL-1	"Related Modules Criteria" switch: filter by fields of a related module.	Live	P1-1	Built	—	E1, E4
CVR-REL-2	"With" and "without" related records, with no field condition.	Docs	P1-1	Built	—	E2, E3
CVR-REL-3	Up to 3 related modules per view, up to 3 rows each.	Docs	P1-1, Q3	Built	—	E5, E6
CVR-REL-4	Fields of a lookup module can be used in criteria (Zoho: module dropdown on each row); up to 5 rows.	Live	P1-3	Built	—	E8
CVR-REL-5	Subform fields can be used in criteria.	Docs	P1-2	Not confirmed — no module with a subform on NDC-Staging	—	— (hole, §15)
CVR-REL-6	A view whose criteria use a deleted or hidden field still runs and shows a warning; the hidden criteria are masked and read-only for that viewer.	Docs	P0-6, §8	Built (warning); masking not confirmed	—	E9–E12

8 Columns

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-COL-1	Choose columns from an Available list into a Selected list and order them.	Live	P0-5	Built	—	C9–C11
CVR-COL-2	The record-name column cannot be removed.	Live	P0-5	Built	—	F1
CVR-COL-3	Manage Columns in the grid; a personal column change is seen only by that user and can be saved to the view or reset.	Live	P0-5	Built	—	F1–F4
CVR-COL-4	A field hidden for the viewer's profile never shows as a column or in the API response.	—	P0-5	Not confirmed	—	E11
CVR-COL-5	Column header menu: Asc, Desc, Pin Column, Filter by, Hide Column.	Live	P0-5	Partly — a header click sorts; no menu	A10	F16, Z12
CVR-COL-6	Pin (freeze) one column at the leading edge (right in RTL).	Live	P0-5	Missing	A9	Z11
CVR-COL-7	Resize column widths; kept per user per view.	Live	P0-5	Missing	A11	F17, Z19
CVR-COL-8	"Reset Column Size" puts all widths back to default.	Live	not in PRD	Missing	B8	Z47
CVR-COL-9	View Mode: Wrap Text (long values wrap) or clipped.	Live	not in PRD	Missing in the list view (Split view has it)	B7	Z45, Z46

9 Sharing, locking and access

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-SHARE-1	Share with: Only me, Everyone, Selected users.	Live	P0-6	Built	—	C14, A2–A6
CVR-SHARE-2	"Selected users" can also pick Groups, Roles, and Roles and Subordinates.	Live	Q15	Missing — users only	A6	Z8
CVR-SHARE-3	Sharing a view needs a permission ("Manage Shared Views"); without it only "Only me" is offered, in the UI and the API.	Docs	P0-6, Q2	Built (to be proven with a lower profile)	—	A2, A3, K5
CVR-SHARE-4	A view never widens access: every viewer sees only the records and fields their own role allows.	—	P0-6, G3	Not confirmed	—	A5, A6, E3, E10, E11, I17, K2, K7, K8
CVR-SHARE-5	People a view is shared with can use, pin and clone it; only the owner and administrators can edit or delete it.	Docs	P0-6	Built (to be proven with a lower profile)	—	A4, G2, G12
CVR-SHARE-6	Removing a user from sharing removes the view from their picker; if it was their last view, the default opens.	—	P0-6	Built (to be proven)	—	G13
CVR-SHARE-7	"Lock this View — Restrict any changes by users with whom the view is shared." Shown for shared views; only administrators and the creator can change or unlock a locked view.	Live	not in PRD	Missing	B3	Z34–Z37

10 Manage, clone, pin and delete

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-MNG-1	Manage custom views page: Name, Shared To, Created By, Last Modified By; search by name; a category filter.	Live	not in PRD	Built	—	B16
CVR-MNG-2	The page groups views by type (Created by me, Shared with me, Public views; Pinned views while one is pinned).	Live	not in PRD	Missing — one flat table with two tabs	A2	Z27
CVR-MNG-3	Row actions on the page: Edit, Clone, Delete View.	Live	P0-7	Built	—	B16, G1, G7
CVR-MNG-4	Tick several custom views and delete them together; system views cannot be ticked.	Live	not in PRD	Missing	B10	Z50–Z52
CVR-MNG-5	View menu: Edit, Pin, Clone, Delete View.	Live	P0-7	Built (plus Edit columns, Close view)	—	G1, G5, G7
CVR-MNG-6	Pin view keeps a view at the top and always shown as a tab; per user; up to 15.	Live (Pin)	P0-1 (as "favourite")	Built	—	G5, G6, B4
CVR-MNG-7	Clone makes a private copy owned by the cloner; standard views cannot be cloned.	Live	P0-7	Built	—	G1–G4
CVR-MNG-8	Delete asks for confirmation naming the view; standard views cannot be deleted.	Live	P0-7	Built	—	G7, G9, G11
CVR-MNG-9	Deleted views go to the Recycle Bin and can be restored.	—	not in PRD	Built (CRM extra)	—	G8
CVR-MNG-10	Before deleting a view that a Work Queue queue uses, the dialog lists those queues.	Docs (Zoho API blocks deletes with associations)	P0-7, Q11	Missing — deleted silently; the queue then shows "source view unavailable"	A18	G10, Z17

11 List view grid, filters, selection and bulk actions

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-GRID-1	Sort by one field, ascending or descending, from the header and from a Sort control.	Live	P0-5	Built	—	F5, F6, F16
CVR-GRID-2	"Total Records N" and paging; records per page can be chosen.	Live	P0-1	Built	—	F7, F8
CVR-GRID-3	A–Z letter filter ("All / A...Z") on the name column.	Live	not in PRD	Missing in CRM modules (Desk has one)	B9	Z48, Z49
CVR-GRID-4	Row actions menu on hover: Edit, Send Email, Create Task, Add Tags, Change Owner, Convert, Delete, Copy URL, More (create call, meeting, appointment).	Live	P1-6	Missing — only inline "Edit field"	A13	F14, F18, Z20
CVR-GRID-5	Activity badge and Notes badge on each row; can be switched off in Manage Columns.	Live (icons) / Docs	P1-6	Missing	A14	Z21
CVR-GRID-6	An empty view reads as "no records", not as an error.	Live ("No Leads found.")	\$5	Built	—	F15
CVR-FLT-1	Filter panel with a search box and "Filter By Fields"; filters apply on top of the view.	Live	N5	Built	—	C16, F19
CVR-FLT-2	"System Defined Filters": Activities, Campaigns, Latest Email Status, Locked, Record Action, Related Records Action, Touched Records, Untouched Records, Cadences. Website Activity where SalesIQ is connected.	Live (Website Activity: Docs)	N5	Missing — "These filters aren't available yet"	A21	F19, Z25
CVR-FLT-3	"Filter By Related Modules" section.	Live	N5	Missing	B2	Z32, Z33
CVR-FLT-4	"Save filter" after a filter is applied; saved filters are per user and per view, can be reordered, and show a record count (Zoho limit 5 or 10 per view by edition).	Live (button) / Docs (rest)	N5	Missing	B1	Z28–Z31
CVR-SEL-1	Tick rows or the whole page; a bar shows "N Record(s) Selected", Clear, and the actions. Selection is cleared when the view changes.	Live	P0-8	Built	—	F9, F10
CVR-SEL-2	"Select all records in this view" across pages, with a cap, respecting criteria and permissions.	Docs	P0-8	Missing — exists only inside Mass Delete	A12	Z13
CVR-BULK-1	Bulk actions act only on the selected records.	Live	P0-8	Built	—	F11

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-BULK-2	Working actions: Delete, Mass Delete, Mass Update, Export, Manage Tags, Import, Import History.	Live	N4	Built	—	F12, F13
CVR-BULK-3	Module menu actions: Mass Convert, Mass Email, Drafts, Approve Leads, Deduplicate Leads, Add to Campaigns, Create Client Script, Zoho Sheet View, Print View.	Live	N3, N4	Partly — present but only show "Coming soon"	A19	F12, J5, Z23
CVR-BULK-4	Selection actions: Run Macro, Create Task, Change Owner, Mail Merge. ("Set reminders" is not in live Zoho.)	Live	N4	Missing	A20	Z24
CVR-BULK-5	Selection actions: Cadences, Print Mailing Labels, Print Using Canvas, Export Selected Records. Module menu: Assignment Rules, Mass Transfer.	Live	N4	Missing (assignment rules exist in the code; not checked on screen)	B11	Z53–Z55

12 Kanban views

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-KAN-1	Kanban View Settings: name, Categorize By (required), Aggregate By (optional), Header Style (mono / multi colour), Share this with, Select Fields.	Live	P0-9	Built	—	H1-H8
CVR-KAN-2	Several Kanban views per module, each with its own categorize field.	Docs	P0-9	Built	—	H10, H11
CVR-KAN-3	Manage Kanban views page; delete with confirmation.	Docs	P0-10	Built	—	H12, H13
CVR-KAN-4	Columns follow the pick list order; records with no value appear in an extra column; counts and totals come from the server; columns load more on demand.	Docs	P0-9	Built	—	I1-I4, H14
CVR-KAN-5	Dragging a card is a normal record edit: required fields, Blueprint, workflow and audit all apply.	Docs	P0-9	Built	—	I6-I12
CVR-KAN-6	Collapse and expand columns, create from a column, layout and pipeline pickers, stage probability on Deals.	Docs	P0-9	Built	—	I5, I14, I15, I19
CVR-KAN-7	Cards can be moved with the keyboard.	—	NFR	Built (CRM extra)	—	I13
CVR-KAN-8	Sort the cards by a chosen field.	Docs	P0-9	Missing	A15	Z14
CVR-KAN-9	Reorder your Kanban views; hover shows creator, last modifier and time.	Docs	P0-10	Missing	A16	Z15
CVR-KAN-10	Aggregate by a rollup summary field.	Docs	P1-7	Missing — "Rollup summaries cannot be totalled."	A17	Z16
CVR-KAN-11	A separate permission to create, edit and delete Kanban views.	Docs	P0-10, Q2	Missing	A8	Z10
CVR-KAN-12	The board shows only records the viewer can access, and totals only over them.	—	P0-6	Not confirmed	—	I17, K8

13 Permissions, API and non-functional

ID	Requirement	Zoho	PRD	CRM today	Gap	Tests
CVR-PERM-1	A profile permission controls who can create custom views.	Docs ("Manage Custom Views")	P0-2, Q2	Missing — every user can create private views	A7	Z9
CVR-PERM-2	Only administrators change the columns of standard views; other users get a personal override.	Docs	P0-1	Not confirmed	—	A7
CVR-PERM-3	Another tenant can never read or change a view.	—	G3	Built (to be proven)	—	A9, K6, K11
CVR-PERM-4	No token, an expired token or missing tenant headers return no data.	—	—	Built (to be proven)	—	A10, A11
CVR-API-1	Views API: list, get, create, update, delete, clone, pin under <code>/api/v1/modules/{m}/views</code> .	Docs (Zoho documents read and change-sort; create/update/delete are in its OpenAPI file only)	P2-3	Built	—	C19–C22, K2–K4, K9
CVR-API-2	Read-only keys cannot be set through the API (<code>is_system</code> , <code>owner</code> , <code>can_edit</code> , <code>version</code>).	—	—	Built (to be proven)	—	C21
CVR-API-3	The API never returns 500 for bad input and never leaks whether a private view exists.	—	—	Built (to be proven)	—	C22, K4, K9
CVR-NFR-1	Arabic and RTL across the picker, editor, manage page, Kanban and Split.	—	NFR	Built (two Arabic plural texts may be missing)	—	L1–L3, E2E-6
CVR-NFR-2	Keyboard and screen-reader use of the picker, editor and board.	—	NFR	Built (to be proven)	—	L4, L5
CVR-NFR-3	First page of a view within 1.5 s (p95); Kanban headers and first cards within 2 s (p95).	—	NFR	Not confirmed	—	L8–L10
CVR-NFR-4	Works on Chrome, Edge and Firefox, and at phone width.	—	—	Not confirmed	—	L6, L7
CVR-NFR-5	View names and criteria text are shown as text everywhere (no script runs).	—	—	Built (to be proven)	—	C2, K1

14 Not gaps and out of scope

Not gaps (CRM matches Zoho, or you decided so):

- **Favourites** — live Zoho's view menu is Edit, Pin, Clone, Delete View. CRM has Pin view (CVR-MNG-6).
- **Setting a default view** — no such control in live Zoho. CRM opens the last used view (CVR-PICK-7).
- **"Other users' views" group** — withdrawn by you on 1 Oct 2026; not shown in the live picker.
- **"Recently Viewed" standard view** — not in the live Leads view list.
- **More standard views** — Zoho also has All Locked, Converted, My Converted, Leads in Review, Mailing Labels, Unread and Unsubscribed Leads. Treated like Converted / Junk Leads, which you ruled "not a gap".
- **Following records from the list, merging columns, a create/delete API for views** — Zoho does not offer them (CRM has the API).
- **Work Queue queues and module views kept apart** — already filed as NDC-1836.

Out of scope in NDC-1868, kept in the missing list for triage:

- Chart, Timeline, Grid, Map and Canvas views (N1, N2) — gap A22, test Z18.
- Sheet View and Print View (N3) — part of gap A19, tests J5, Z23.
- Rebuilding bulk operations (N4) and Smart Filters (N5) — gaps A19–A21, B1, B2, B11.

15 Not confirmed — what blocks it

What	Why	Needed
Everything a lower profile is needed for (CVR-SHARE-3 to -6, CVR-PERM-2, CVR-COL-4, CVR-KAN-12, and Zoho's lock rules)	The second account signs in but the app stays on "Signing in..."	A working Manager or User account on NDC-Staging
CVR-REL-5 subform criteria	No module with a subform on NDC-Staging	A module with a subform
CVR-CRIT-17 Last Activity Time	Not yet checked on the CRM screen	Run D25
CVR-CRIT-8 date "isn't" and "is not empty"	Not in the operator list recorded in spec v2	Run D1 on a date field
CVR-EDIT-11 audit log	Not yet checked	Run C24
Zoho Kanban sort, reorder and rollup (CVR-KAN-8 to -10); "Select all records in this view" (CVR-SEL-2)	Not seen live: needs a Kanban view to be created in Zoho, and more records than one page	Rest on Zoho's help pages
Analytics events in NDC-1868 §10	Cannot be seen from the UI	Analytics access

16 Open questions for the product owner

1. Do you accept the 11 new gaps (missing list Part B) as requirements? Until you say so they are marked "not in PRD" here and "not filed" in the test spec.
2. CVR-CRIT-6: Zoho has fiscal quarter and fiscal year only. Should CRM also offer plain calendar quarters (NDC-1869 item 5 lists both)?
3. CVR-BULK-4: "Set reminders" is not in live Zoho. Remove it from NDC-1869 item 20?
4. CVR-SHARE-7: if "Lock this View" is built, who may unlock — the creator and administrators only (Zoho's rule)?
5. CVR-FLT-4: how many saved filters per view (Zoho: 5 or 10 by edition)?
6. NDC-1868 questions still open: Q2 (which profiles may create, share and manage Kanban), Q4 (workflow rules on large bulk actions), Q11 (block, warn or cascade when deleting a view in use), Q13, Q14 (what a view may reveal about hidden fields and records).
